AVENTICS Series AS3 Air Preparation Units

The AVENTICS Series AS3 is a modular, versatile maintenance unit for universal application. This Series offers compact dimensions, is highly efficient, lightweight and easy-to-use. The AVENTICS Series AS guarantees reliability, safety, and efficiency with a simplified assembly and maintenance efforts.

Regulator type Regulator function Filter element Filter reservoir volume Max. achievable compressed air class acc. to	Diaphragm-type pressure regulator with relieving air exhaust exchangeable 49 cm ³ 6 : 7 : -
ISO 8573-1:2010	
Medium	Compressed air Neutral gases
Weight	0.818 kg
weight	0.010 kg
Material	
Housing material	Polyamide
Seal material	Acrylonitrile butadiene rubber
Material front plate	Acrylonitrile butadiene styrene
Material threaded bushing	Die cast zinc
Material reservoir	Polycarbonate
Material protective guard	Polyamide
Material filter insert	Polyethylene
Part No.	R412007193

Technical information

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

Note: Polycarbonate reservoirs are susceptible to solvents, supplementary information can be found at "Customer information".

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Also suitable for separation of fluid oil or water due to the design.

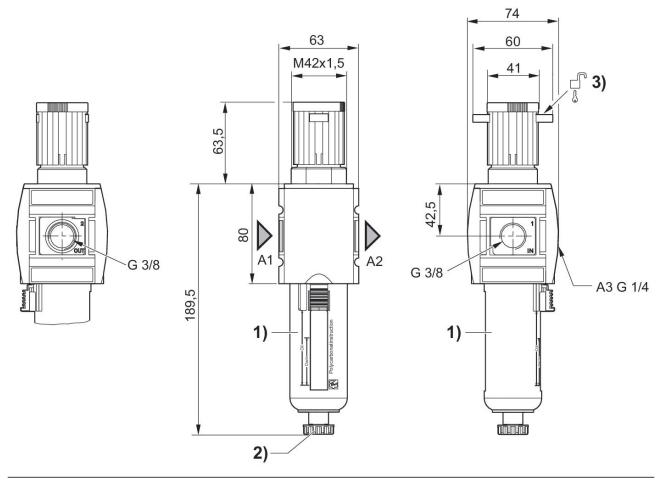

Nominal flow Qn with secondary pressure p2 = 6 bar at $\Delta p = 1$ bar

Order pressure gauge separately
