## Filter, Series AS5-FLS R412009015

#### Series AS5

The AVENTICS Series AS5 is a modular, versatile maintenance unit for universal application. This Series offers compact dimensions, is highly efficient, lightweight and easy-to-use. The AVENTICS Series AS guarantees reliability, safety, and efficiency with a simplified assembly and maintenance efforts.

#### Туре

Can be assembled into blocks

| Material                  |                                 |
|---------------------------|---------------------------------|
| Housing material          | Polyamide                       |
| Material front plate      | Acrylonitrile butadiene styrene |
| Seal material             | Acrylonitrile butadiene rubber  |
| Material threaded bushing | Die cast zinc                   |
| Material reservoir        | Die cast zinc                   |
| Material filter insert    | Polyethylene                    |
| Part No.                  | R412009015                      |
|                           |                                 |

#### **Technical information**

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

Note: Polycarbonate reservoirs are susceptible to solvents, supplementary information can be found at "Customer information".

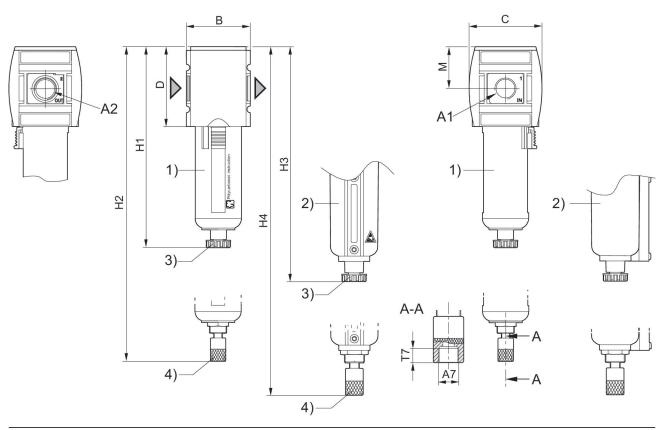

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Also suitable for separation of fluid oil or water due to the design.
