R412009235

Series AS5

The AVENTICS Series AS5 is a modular, versatile maintenance unit for universal application. This Series offers compact dimensions, is highly efficient, lightweight and easy-to-use. The AVENTICS Series AS guarantees reliability, safety, and efficiency with a simplified assembly and maintenance efforts.

Technical data

Industry Industrial Parts Lubricator

Reservoir reservoir, metal, standard, with inspection glass

Compressed air connection G 1

Nominal flow Qn 15800 I/min
Mounting orientation vertical
Min. working pressure 0.5 bar
Max. working pressure 16 bar
Min. ambient temperature -10 °C
Max. ambient temperature 50 °C

Medium Compressed air Neutral gases

Type of filling Semi-automatic oil filling during operation

Manual oil filling

Lubricator reservoir volume 181 cm³

inspection glass with window
Oil dosing at 1000 l/min 1-2 drops

Function Oil-mist lubricator

Function Can be assembled into blocks

Weight 0.762 kg

Standard oil-mist lubricator, Series AS5-LBS

2024-03-20

R412009235

Material

Housing material Polyamide

Material front plate Acrylonitrile butadiene styrene Seal material Acrylonitrile butadiene rubber

Material threaded bushing Die cast zinc Material reservoir Die cast zinc Part No. R412009235

Technical information

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

Electrical level detection only with ST6 sensor with reed contact, sensor holder included in the scope of the delivery.

Sensor not included in scope of delivery, sensor installation prepared.

The entire preset drip quantity enters the pressure system.

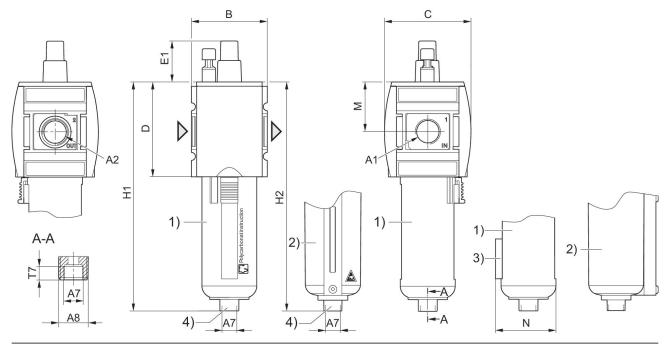

Manual oil filling possible during operation at a maximum operating pressure of 10 bar.

Note: Polycarbonate reservoirs are susceptible to solvents, supplementary information can be found at "Customer information".

Nominal flow Qn with secondary pressure p2 = 6 bar at $\Delta p = 1$ bar

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Dimensions

- A1 = input A2 = output
 1) Plastic reservoir and protective guard with window
- 2) Metal reservoir with inspection glass
- 3) Holder for sensor
- 4) Port for semi-automatic oil filling
