5/2-directional valve, Series CD12-LT R414013889

General series information Series CD12-LT

AVENTICS series CD12-LT consists of various spool valves with an extremely durable aluminum housing. CD12-LT is designed to operate under extreme ambient temperatures from -40 °C to +70 °C and extended voltage tolerance from -30 % to +25 %. The CD12-LT series is ideal for applications in harsh environments and complies with international standards for railroad applications.

Technical data

Industry Activation Valve type Switching principle Valve function Actuating control Sealing principle Connection type Manual override

Compressed air connection input Compressed air connection output Rail Electrically Spool valve, positive overlapping 5/2, double solenoid NC Double Solenoid soft seal Plate connection without

flange flange

Compressed air connection, exhaust	flange
Nominal flow Qn 1 to 2	3000 l/min
Nominal flow Qn 2 to 3	3000 l/min
Working pressure min.	3 bar
Working pressure max	10 bar
Control pressure min.	3 bar
Control pressure max.	10 bar
Electrical connection type	Plug
Electrical connection size	EN 175301-803, form A
Electrical connection number of poles	3-pin
Connector standard	EN 175301-803:2006
Protection class with connection	IP65
Reverse polarity protection	Protected against polarity reversal
Operational voltage	24 V DC
Voltage tolerance DC	-30% / +25%
Dilat	
Pilot	External
Pilot Pilot valve width	External 30 mm
Pilot valve width	30 mm
Pilot valve width Power consumption DC	30 mm 5.5 W
Pilot valve width Power consumption DC Duty cycle	30 mm 5.5 W 100 %
Pilot valve width Power consumption DC Duty cycle Typ. switch-on time	30 mm 5.5 W 100 % 80 ms

Technical information

Nominal flow Qn at 6 bar and $\Delta p = 1$ bar

Typ. switch-on/-off time at 20 °C

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

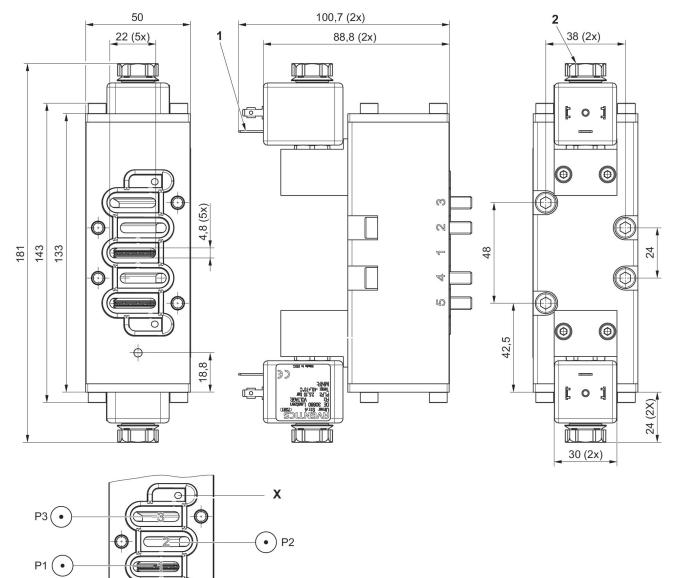

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).

The protection class is only ensured when the plug is mounted properly. For detailed information, see operating instructions.
