

AVENTICS Logic valves

Technical data

Industry	Industrial
Sealing principle	Soft seal
Type	Poppet valve
Medium	Compressed air
Max. particle size	1 µm
Min. ambient temperature	0 °C
Max. ambient temperature	80 °C
Min. medium temperature	0 °C
Max. medium temperature	80 °C
Min. oil content of compressed air	0 mg/m ³
Max. oil content of compressed air	1 mg/m ³
Logic function	AND
Connection type	Plate valve with pipe connection
Nominal flow Qn	80 l/min
Min. working pressure	1 bar
Max. working pressure	10 bar
Weight	0.03 kg
Housing material	Polyamide
Seal material	Acrylonitrile butadiene rubber

Part No.

0821001007

Technical information

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the “Technical information” document (available in <https://www.emerson.com/en-us/support>).

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the “Technical information” document (available in <https://www.emerson.com/en-us/support>).

Dimensions

1) pins for securing the position
