AVENTICS Fine setting valves

Fine-Setting-Valve: Manually operated pressure regulators with multiple manual actuating element choice.

Technical data

Industry	Industrial
Туре	Poppet valve
Actuating element	Push button
Compressed air compaction input	C 1/1

Compressed air connection input G 1/4

G 1/4 Compressed air connection output 0.1 bar Min. working pressure Max. working pressure 10 bar Min. regulation range 0.1 bar Max. regulation range 2.6 bar -25 °C Min. ambient temperature Max. ambient temperature 70 °C -25 °C Min. medium temperature 70 °C Max. medium temperature

Medium Compressed air

Nominal flow Qn

Hysteresis

< 0,15 bar

control stroke

7.5 mm

Min. actuating force

110 N

Parallel pressure displacement

Weight

0.5 kg

Housing material Die cast zinc

Fine setting valve

3610507100

Fine setting valves

2024-03-14

Seal material Part No.

Acrylonitrile butadiene rubber 3610507100

Technical information

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).

Pressure characteristics curve

x = stroke
The characteristic curve can be moved parallel to the illustrated characteristic curve (in the y direction) using the screw cap.

Flow rate characteristic, p2 = 0,05 - 7 bar

input pressure: 8 bar, supply pressure: 6 bar y: pressure in line "A" [bar]
