

AVENTICS Series HU1 Holding units

The AVENTICS Series HU1 is a an holding unit using spring force. Holding cartridge can be exchanged in case of wear.

Technical data

Industry	Industrial
Function	Hold with clamping jaws
Function	hold: spring force, release: compressed air
Piston Ø	63 mm
suitable piston rod Ø	20 mm
Piston rod extension	57 mm
Compressed air connection	G 1/8
Min. release pressure	4 bar
Max. release pressure	8 bar
Min. medium temperature	-10 °C
Max. medium temperature	60 °C
Medium	Compressed air
Max. particle size	5 µm
Min. ambient temperature	-10 °C
Max. ambient temperature	60 °C
Min. oil content of compressed air	0 mg/m ³
Max. oil content of compressed air	5 mg/m ³
Static holding force	2500 N
Weight	0.8 kg

Material

Housing	Aluminum
Surface housing	black anodized
Part No.	0821401168

Technical information

Warning: The holding unit may not be used for the following applications: 1) for dynamic holding 2) in or as safety equipment

Holding unit may only be unlocked when turned off.

Make sure that the load direction does not change during a holding interval. A change in the direction of force, as well as external forces such as impacts, strong vibrations, or torsional forces, will briefly release the piston rod and may destroy the HU1 holding unit.

When clamped, there must be no residual pressure on the holding unit (0 bar).

Note: The minimum control pressure is \geq the working pressure of the cylinder!
