# Pressure Switches, Series PM1, CNOMO, form A, without valve plug connector

**R412010721** 2024-12-12

- · Robust housing
- Available with the pressure ranges -0.9 to 0 bar, -0.9 to 1 bar, -0.9 to 3 bar or 0.2 to 16 bar
- · Various process connections
- · ATEX version available

#### **AVENTICS Series PM1 Pressure switches**

The AVENTICS Series PM1 is a compact pressure switch for measuring compressed air and hydraulic oil. The Series PM1 allows users to select between different pressure ranges from -0.9 to 16 bar.

Series PM1

#### Technical information

Industry Industrial Type Mechanical

Type Diaphragm, spring loaded, adjustable

Mounting orientationAnyOperating pressure min0.2 barOperating pressure max16 barProtection against overpressure80 bar

Operational voltage 12-125 V DC 12-250 V AC

Max. shock resistance 15 g IEC 60068 - 2-64

Vibration resistance 10 g (60 - 500 Hz) IEC 60068 - 2-6

Precision (% of full scale value) ± 2 %

Hysteresis max. switching pressure difference

Measurement Relative pressure

Compressed air connection CNOMO

Min. medium temperature -10 °C

Max. medium temperature 80 °C

Medium Compressed air

Hydraulic oil

Valve plug connector Without valve plug connector

# Pressure Switches, Series PM1, CNOMO, form A, without valve plug connector

R412010721 2024-12-12

Electrical connection type Plug

Electrical connection size EN 175301-803, form A

Min. ambient temperature -20 °C Max. ambient temperature 80 °C

Switching element microswitch (input/output)

Max. switching frequency 100/min.
Switching point adjustable
Protection class IP65

Mounting types via through holes

Weight 0.37 kg

Material

Housing material Aluminum

Seal material Acrylonitrile butadiene rubber

Material electrical connection Brass

Part No. R412010721

### Technical information

Switching function in case of rising underpressure: contact switches from 1-3 to 1-2. Switching function in case of falling underpressure: contact switches from 1-2 to 1-3.

Set to 1,5 bar operating pressure. Adjustment screw secured and covered by an adhesive label.

Notice: Too-high currents can damage contacts. Inductive or capacitive loads must be equipped with appropriate spark-quenching!

The microswitch has silver-plated contacts.

Please observe the pin assignment when selecting plug connectors.

Min. switching pressure range 0.2 bar falling/0.5 bar rising

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

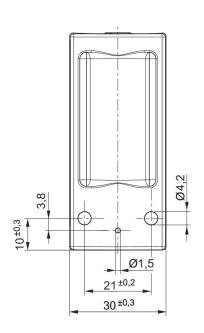

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
