Pressure regulator, Series 653 G653AR006GA00H0

General series information Series 651

The AVENTICS Series 653 is an easy-toinstall line of pneumatic filters, regulators and lubricators (FRLs) that offer the industry's highest flow rates and widest temperature ratings. Available in 1/2-inch, 3/4-inch, and 1-inch port sizes, these FRLs are ideal for automotive and tire, packaging, food and beverage, and process applications requiring highly reliable operation and robust, modern-looking equipment. Available with integrated redundant safe exhaust valve and IIoT enabled air flow sensor.

Technical data

Industry Parts Pressure gauge Port Compressed air connection standard Nominal flow Qn Regulation range min. Regulation range max. Working pressure min. Working pressure max Min. ambient temperature Max. ambient temperature Industrial Pressure regulator With integrated pressure gauge G 1 according to ISO 228-1 11500 l/min 0.5 bar 10 bar 0 bar 20 bar -20 °C 50 °C

Material

Housing material Material front plate Seal material Part No. Extended temperature range min./max. (optional) -40 °C ... 80 °C Can be assembled into blocks ATEX optional 0,4 bar Compressed air Neutral gases 1.1 kg

Aluminum Polyamide Nitrile butadiene rubber G653AR006GA00H0

Technical information

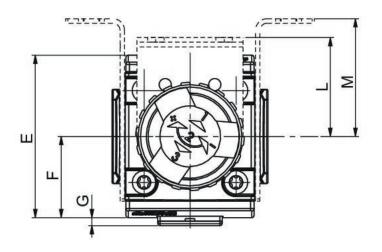

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

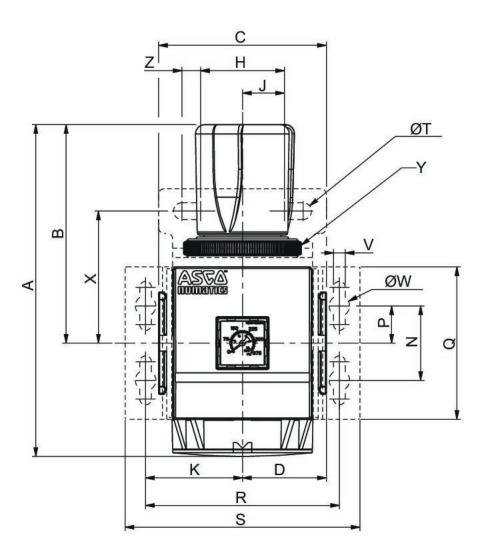

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
