#### **Series RPC**

The AVENTICS Series RPC round profile cylinders offer a wide variety of connection options. They are easy to clean and suitable for packaging applications in the food industry due to food grade lubricants. The Series RPC can also be used in standard applications across machine automation needs.

| Cylinder tube         | Stainless Steel      |
| End cover             | Aluminum             |
| Nut for piston rod    | Steel, chrome-plated |
| Guide bushing         | Steel, chrome-plated |
| Part No.              | R412020774           |

#### **Technical information**

Ambient temperature with contact query max. [[120] °C]

Use our Internet configurator to order these variants with coarse-pitch thread M10x1.5 or M12x1.75. The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

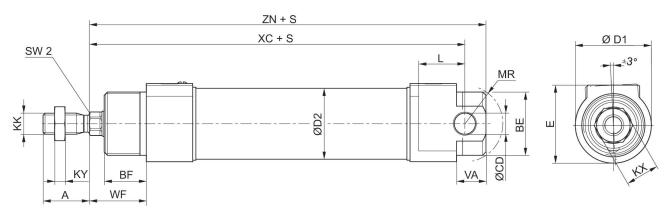

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
