

AVENTICS Series SA1 Industrial shock absorbers

The AVENTICS Series SA1 industrial shock absorbers decelerate reliably moving masses and thereby increase process speed, production quality, the service life of production facilities and reduce operating noise.

Technical data

Industry	Industrial
Type	SA1-MA
Mounting thread	M33x1,5
Stroke	25 mm
Max. energy absorption/stroke	300 Nm
Max. energy absorption/hour	120000 Nm
Cushioning	adjustable
Medium	Oil
Min. ambient temperature	-20 °C
Max. ambient temperature	80 °C
Effective mass m_e min.	60 kg
Effective mass m_e max.	2950 kg
Min. return spring force	30 N
Max. return spring force	50 N
Min. impact speed	0.02 m/s
Max. impact speed	6 m/s
Mounting	Lock nut
Weight	0.45 kg

Industrial shock absorber, Series SA1-MA

R412010327

Series SA1

2024-01-10

Material

Material cylinder tube	Steel, chrome-plated
Surface cylinder tube	bronzed
Material piston rod	Stainless Steel
Surface piston rod	ground and hardened
Material stop	Steel, chrome-plated
Surface stop	hardened and bronzed
Material lock nut	Steel, chrome-plated
Surface lock nut	bronzed
Scraper material	Polyurethane
Part No.	R412010327

Dimensions

Positioning the clamping flanges

A = mounting thread

V = tilt
