

AVENTICS Series ST6 Magnetic proximity sensors

The AVENTICS Series ST6 sensors are suitable for mounting in the 6 mm T-slot as well as sensor mounting to the cylinder. They are suited for mounting to all AVENTICS round cylinders, tie rod cylinders, and profile cylinders. With their optimized, compact shape, the sensors can be flush-fit into existing slots and integrated into any machine environment, even with sensor mounting. Retaining ribs on the side of the sensor enable simple mounting, including in hard-to-reach locations or for overhead assembly. The durable mounting screw holds the sensor in the desired position and can withstand shocks or vibrations.

Max. operating voltage DC	30 V DC
Quiescent current (without load)	< 10 mA
Certificates	ATEX CE declaration of conformity cULus RoHS UL (Underwriters Laboratories)
Protection class	IP67
Min. ambient temperature	-20 °C
Max. ambient temperature	50 °C
Voltage drop U at I _{max}	≤ 2,5 V
Max. DC switching current	0.1 A
Max. switching frequency	1000 Hz
Switching point precision	±0,1 mT
Switching logic	NO (make contact)
LED status display	Yellow
Electrical connection 2, type	open cable ends
Electrical connection 2, number of poles	3-pin
Short circuit resistance	short circuit resistant Protected against polarity reversal
Shock resistance	30 g / 11 ms
Vibration resistance	10 - 55 Hz, 1 mm
Cable length L	5 m

Material

Housing material	Polyamide
Material cable sheath	Polyurethane
Material locking screw	Stainless Steel
Part No.	R412022856

Technical information

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in <https://www.emerson.com/en-us/support>).
