## 5/3-directional valve, Series 581, size 2

5812491530

General series information AVENTICS Series 581 - Size 2 Standardized valves

■ The AVENTICS series 581 complies with the ISO 5599-1 valve standard. Due to the high degree of modularity, the series offers all valve functions, integrated throttle valves, various pilot coils and an extensive range of accessories.

## Technical data

Industry Industrial
Activation Electrically
Nominal flow Qn 2100 I/min

Switching principle 5/3

Version Closed Center

Compressed air connection output Base plate ISO 5599-1

Working pressure min. 3 bar
Working pressure max 16 bar
DC operating voltage 24 V

Voltage tolerance DC -10% / +10% Voltage tolerance AC 50 Hz -10% / +10%

Manual override without

Electrical connection type Plug

EN 175301-803, form A Electrical connection size

Sealing principle soft seal Pilot Internal Standards ISO 5599-1

Pilot valve width 30x22 mm CNOMO

Valve type Spool valve

Blocking principle Single base plate principle

Plate connection Connection type

Base plate ISO 5599-1 Compressed air connection input Compressed air connection, exhaust Base plate ISO 5599-1

Compressed air connection pilot exhaust M5 Power consumption DC 6.7 W Flow conductance C 8.9 l/(s\*bar) Throttle with throttle

**ISO 2** Frame size 3 bar Control pressure min. 16 bar Control pressure max. -15 °C Min. ambient temperature 50 °C Max. ambient temperature -15 °C Min. medium temperature 50 °C

Compressed air Medium

Max. particle size 50 µm Oil content of compressed air min. 0 mg/m<sup>3</sup> Oil content of compressed air max. 5 mg/m<sup>3</sup> **IP65** Protection class with connection 100 % Duty cycle 17 ms Typ. switch-on time Typ. switch-off time 36 ms

mounting screws with hexagon socket

Mounting screw tightening torque 3.5 Nm  $0.71 \, \text{kg}$ Weight Housing material Aluminum

Seal material Acrylonitrile butadiene rubber

Part No. 5812491530

Max. medium temperature

## **Technical information**

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).

## **Dimensions**
