## AVENTICS Series 581 - Size 1 Standardized valves

The AVENTICS series 581 complies with the ISO 5599-1 valve standard. Due to the high degree of modularity, the series offers all valve functions, integrated throttle valves, various pilot coils and an extensive range of accessories. Qn = 950 ... 1400 l/min

### Technical data

|                                  |                         |
|----------------------------------|-------------------------|
| Industry                         | Industrial              |
| Activation                       | Electrically            |
| Nominal flow Qn                  | 1100 l/min              |
| Switching principle              | 5/3, pressurized center |
| Version                          | Pressurized Center      |
| Compressed air connection output | Base plate ISO 5599-1   |
| Min. working pressure            | 3 bar                   |
| Max. working pressure            | 16 bar                  |
| Operational voltage              | 230 V AC                |
| Operational voltage AC at 50 Hz  | 230 V                   |
| Voltage tolerance AC 50 Hz       | -10% / +10%             |
| Manual override                  | without detent          |
| Electrical connection type       | Plug                    |
| Electrical connection size       | EN 175301-803, form A   |
| Sealing principle                | Soft seal               |
| Pilot                            | Internal                |

| Min. oil content of compressed air      | 0 mg/m <sup>3</sup>            |
| Max. oil content of compressed air      | 5 mg/m <sup>3</sup>            |
| Protection class with connection        | IP65                           |
| Duty cycle                              | 100 %                          |
| Typ. switch-on time                     | 14 ms                          |
| Typ. switch-off time                    | 28 ms                          |
| Mounting screws                         | with hexagon socket            |
| Mounting screw tightening torque        | 2 Nm                           |
| Weight                                  | 0.5 kg                         |
| Housing material                        | Aluminum                       |
| Seal material                           | Acrylonitrile butadiene rubber |
| Part No.                                | 5811791440                     |

## Technical information

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in <https://www.emerson.com/en-us/support>).
