Series AP Directional valves

The AVENTICS Series AP offers a wide range of poppet valves with aluminium housing. With many actuation control versions available (roller, lever, pedal, push-button or plunger) the AP Series is the universal solution for automation systems and panel installation.

Weight 0.075 kg

Material

Housing material Aluminum

Seal material Acrylonitrile butadiene rubber

Part No. 0820402105

Technical information

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

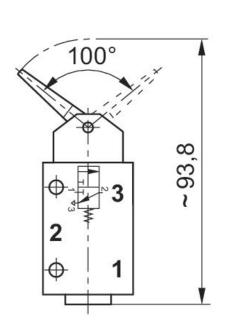

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).

Nominal flow Qn at 6 bar and $\Delta p = 1$ bar
