## Displacement encoder MLO-POT-1750-TLF Part number: 152635

**FESTO** 

General operating condition

## **Data sheet**

| Feature  | Value   |
|--|---|
| CE marking (see declaration of conformity)       | As per EU EMC directive                                   |
| Measuring principle of linear potentiometer      | Analog  |
| Ambient temperature                              | -30 °C 100 °C   |
| Recommended contact current                      | <1 μA   |
| Max. short-time slider current                   | 10000 μΑ  |
| Max. travel speed                                | 10 m/s  |
| Max. travel acceleration                         | 200 m/s <sup>2</sup>                                      |
| Displacement resolution                          | 0.01 mm   |
| Independent linearity                            | 0.03 %  |
| Temperature coefficient                          | 5 ppm/K   |
| Stroke   | 1750 mm   |
| Output signal                                    | Analog  |
| Connection resistance                            | 20 kOhm   |
| Connection resistance tolerance                  | 20 %  |
| Nominal operating voltage DC                     | 10 V  |
| Max. operating voltage DC                        | 42 V  |
| Permissible voltage fluctuations                 | <1%   |
| Max. current consumption                         | 4 mA  |
| Electrical connection                            | 4-pin Form A Plug as per DIN 43650 Rectangular design     |
| Structural design                                | with cover strip<br>with sliding carriage<br>Open profile |
| Coupling parallel quick coupling                 | ± 1.5 mm  |
| Moment compensator angular offset                | ±1°   |
| Mounting position                                | Any   |
| Product weight                                   | 3500 g  |
| Housing material                                 | Wrought aluminum alloy<br>Anodized                        |
| Covering material                                | Steel   |
| Slide carriage housing material                  | Die-cast aluminum<br>Polymer                              |
|  |   |
| Slide carriage coupling material                 | Steel   |
| Slide carriage coupling material  Cover material | Steel Polymer   |

| Feature   | Value                          |
|---|--------------------------------|
| Degree of protection at top                         | as per IEC 60529               |
| Bottom degree of protection                         | as per IEC 60529               |
| Vibration resistance to DIN/IEC 68 Part 2-6         | Tested as per severity level 2 |
| Continuous shock resistance to DIN/IEC 68 Part 2-82 | Tested as per severity level 2 |
| LABS (PWIS) conformity                              | VDMA24364-B2-L                 |
