Part number: 7471

## General operating condition

## **Data sheet**

| Feature  | Value  |
|--|--|
| Conforms to standard                           | EN 60947-5-1                                       |
| Symbol   | 00995409   |
| CE marking (see declaration of conformity)     | As per EU low voltage directive                    |
| UKCA marking (see declaration of conformity)   | To UK instructions for electrical equipment        |
| Measured variable                              | Relative pressure                                  |
| Method of measurement                          | Pneumatic/electric pressure transducer             |
| Operating pressure                             | 0 MPa 0.025 MPa                                    |
| Operating pressure                             | 0 bar 0.25 bar                                     |
| Max. overload pressure                         | 8 bar  |
| Operating medium                               | Compressed air as per ISO 8573-1:2010 [7:4:4]      |
| Information on operating and pilot media       | Operation with oil lubrication possible            |
| Temperature of medium                          | 0 ℃ 60 ℃   |
| Ambient temperature                            | 0 °C 60 °C   |
| Switching output                               | Contact-based                                      |
| Switching function                             | Threshold value with fixed hysteresis              |
| Switching element function                     | Changeover switch                                  |
| Max. switch-on point                           | 0.25 bar   |
| Min. switch-off point                          | 0.07 bar   |
| Max. switching frequency                       | 1 Hz   |
| Minimum load current                           | 100 mA   |
| Operating voltage range AC                     | 12 V 250 V   |
| DC operating voltage range                     | 12 V 250 V   |
| Utilization category for inductive load        | AC-14<br>DC-13                                     |
| Utilization category for ohmic load            | AC-12<br>DC-12                                     |
| Electrical connection                          | 3 connecting wires                                 |
| Electrical connection 1, connection technology | Open end   |
| Cable length                                   | 0.5 m  |
| Material of cable sheath                       | PVC  |
| Type of mounting                               | Optionally: On mounting frame 1n With through-hole |
| Mounting position                              | Any  |
| Pneumatic connection                           | PK-4   |
| Product weight                                 | 40 g   |

| Feature                        | Value                                  |
|--------------------------------|--|
| Housing material               | PA-reinforced POM Steel VMQ (silicone) |
| Switching contact material     | Silver                                 |
| Electrical connection material | Tin-plated                             |
| Diaphragm material             | Chloroprene rubber                     |
| Setting options                | Permanently set                        |
| Degree of protection           | IP67                                   |
| Insulation voltage             | 2000 V                                 |
| LABS (PWIS) conformity         | VDMA24364-B1/B2-L                      |
| Contamination level            | 3                                      |
