## Vacuum generator VN-05-L-T3-PQ2-VQ2-RO1-A Part number: 532621

⊡♪

General operating condition

## **Data sheet**

| Feature                                       | Value  |
|---|--|
| Nominal width of Laval nozzle                 | 0.45 mm  |
| Width dimension                               | 14 mm  |
| Muffler construction type                     | Open   |
| Mounting position                             | Any  |
| Ejector characteristics                       | Standard<br>High suction volume                          |
| Integrated function                           | Ejector pulse valve, pneumatic<br>Pneumatic muffler open |
| Structural design                             | T-shape  |
| Symbol  | 00992043   |
| Operating pressure for max. suction rate      | 5 bar  |
| Operating pressure                            | 1 bar 8 bar  |
| Nominal operating pressure                    | 6 bar  |
| Max. suction rate with respect to atmosphere  | 13.6 l/min   |
| Air supply time at nominal operating pressure | 1.93 s   |
| Operating medium                              | Compressed air as per ISO 8573-1:2010 [7:4:4]            |
| Information on operating and pilot media      | Operation with oil lubrication not possible              |
| Corrosion resistance class (CRC)              | 1 - Low corrosion stress                                 |
| LABS (PWIS) conformity                        | VDMA24364-B1/B2-L  |
| Temperature of medium                         | 0 °C 60 °C   |
| Cleaning advice                               | Soap suds  |
| Noise level at nominal operating pressure     | 52 dB(A)   |
| Ambient temperature                           | 0 °C 60 °C   |
| Max. tightening torque                        | 0.5 Nm   |
| Product weight                                | 49 g   |
| Type of mounting                              | With through-hole<br>With H-rail<br>With accessories     |
| Pneumatic connection 1                        | QS-6   |
| Pneumatic connection 3                        | Pneumatic muffler open                                   |
| Vacuum connection                             | QS-6   |
| Material of connecting thread                 | Wrought aluminum alloy, anodized                         |
| Note on materials                             | RoHS-compliant   |
| Seals material                                | NBR  |
| Female nozzle material                        | РОМ  |

## **FESTO**

| Feature                       | Value                           |
|-------------------------------|---------------------------------|
| 0                             | PA-reinforced<br>POM-reinforced |
| Muffler material              | PE                              |
| Material of screws            | Steel                           |
| Material of jet nozzle        | Wrought aluminum alloy          |
| Material of pneumatic fitting | Brass<br>Nickel-plated          |
