Vacuum generator VN-14-L-T4-PQ2-VQ3-RO2 Part number: 547710

FESTO

General operating condition

Data sheet

Standegrated functionPneuuctural designT-shambol0099erating pressure for max. suction rate8 barerating pressure1 barminal operating pressure6 barx. suction rate with respect to atmosphere90 l/supply time at nominal operating pressure0.25erating mediumComportation on operating and pilot mediaOperormation on operating and pilot mediaOperrrosion resistance class (CRC)1 - LcBS (PWIS) conformityVDMmperature of medium0 °C .ise level at nominal operating pressure77 dfcbient temperature0 °C .x. tightening torque0.5 Noduct weight36 gbe of mountingWithwithWithuum connection 1QS-8cuum connectionQS-8	uction rate rd atic muffler open e 489 . 8 bar
