## Valve unit VPCB-6-L-8-G38-10-F-D3-T22-M

**FESTO** 

Part number: 8071579

General operating condition

## **Data sheet**

| Feature                                      | Value   |
|--|---|
| Valve function                               | 3-way proportional pressure control valve   |
| Structural design                            | Piston gate valve with integrated pressure sensors  |
| Type of control                              | Direct  |
| Actuation type                               | Electrical  |
| Reset method                                 | Magnetic spring   |
| Flow direction                               | Non-reversible  |
| Mounting position                            | Any   |
| Sealing principle                            | Hard  |
| Nominal width                                | 6 mm  |
| Short-circuit protection                     | yes   |
| Display type                                 | LED   |
| Standard nominal flow rate                   | 725 l/min   |
| Operating pressure                           | 0.4 MPa 0.8 MPa   |
| Operating pressure                           | 4 bar 8 bar   |
| Typical lowering speed                       | 15 mm/s   |
| Note on lowering speed                       | When manual exhausting is actuated with cylinder diameter 80 mm, transmission ratio 1:1 and 100 kg load.                            |
| Ambient temperature                          | 0 °C 50 °C  |
| Operating medium                             | Compressed air as per ISO 8573-1:2010 [6:4:4]   |
| Information on operating and pilot media     | Operation with oil lubrication not possible<br>Maximum particle size 5 µm   |
| Degree of protection                         | IP65  |
| Note on degree of protection                 | In mounted state  |
| Certification                                | RCM compliance mark   |
| KC characters                                | KC EMC  |
| CE marking (see declaration of conformity)   | As per EU EMC directive<br>As per EU RoHS directive   |
| UKCA marking (see declaration of conformity) | To UK instructions for EMC To UK RoHS instructions  |
| LABS (PWIS) conformity                       | VDMA24364 zone III  |
| Note on materials                            | RoHS-compliant  |
| Vibration resistance                         | Transport application test with severity level 2 as per FN 942017-4 and EN 60068-2-6  |
| Shock resistance                             | Shock test with severity level 2 as per FN 942017-5 and EN 60068-2-27   |
| Corrosion resistance class (CRC)             | 1 - Low corrosion stress  |
| Application note                             | The product is suitable for industrial purposes only. Radio interference suppression measures may be required in residential areas. |

| Feature  | Value  |
|--|--|
| Nominal operating voltage DC                                 | 24 V   |
| DC operating voltage range                                   | 21.6 V 26.4 V  |
| Residual ripple  | 5 %  |
| Max. current consumption                                     | 1.2 A  |
| Current consumption  | 120 mA   |
| Reverse polarity protection                                  | for operating voltage  |
| Duty cycle   | 100%   |
| Max. electrical power consumption                            | 33.5 W   |
| Diagnostic function  | Indication via LED   |
| Max. cable length  | 30 m   |
| Fieldbus interface, connection type                          | Plug   |
| Fieldbus interface, connection technology                    | M12x1, A-coded as per EN 61076-2-101                         |
| Fieldbus interface, number of poles/wires                    | 5  |
| Fieldbus interface, protocol                                 | CAN bus with Festo protocol                                  |
| Electrical connection for actuator, connection type          | Socket   |
| Electrical actuator connection, connection technology        | M12x1 A-coded as per EN 61076-2-101                          |
| Electrical actuator connection, number of pins/wires         | 8  |
| Pneumatic valve electrical connection, connection type       | Plug   |
| Electrical pneumatic valve connection, connection technology | Connection diagram form C as per industrial standard, 9.4 mm |
| Electrical pneumatic valve connection, number of pins/wires  | 2  |
| Type of mounting   | Direct fastening via M5 thread                               |
| Pneumatic connection 1                                       | G3/8   |
| Pneumatic connection 2                                       | G3/8   |
| Pneumatic connection 3                                       | G3/8   |
| Pneumatic connection for control component                   | G1/8   |
| Product weight   | 1550 g   |
| Housing material   | Wrought aluminum alloy, anodized                             |
| Seals material   | FPM<br>HNBR<br>NBR   |
