## Air solenoid valve VUVS-LT30-T32H-MZD-G38-F8-1C1

**FESTO** 

Part number: 8036717

General operating condition

## **Data sheet**

| Feature                                | Value  |
|--|--|
| Valve function                         | 2x3/2, open/closed, monostable               |
| Actuation type                         | Electrical                                   |
| Valve size                             | 31 mm  |
| Standard nominal flow rate             | 1600 l/min                                   |
| Pneumatic working port                 | G3/8   |
| Operating voltage                      | 24V DC                                       |
| Operating pressure                     | 0.1 MPa 1 MPa                                |
| Operating pressure                     | 1 bar 10 bar                                 |
| Structural design                      | Plate seat                                   |
| Reset method                           | Mechanical spring                            |
| Certification                          | c UL us - Recognized (OL)                    |
| Degree of protection                   | IP65<br>With plug socket<br>as per IEC 60529 |
| Nominal width                          | 7.8 mm                                       |
| Exhaust air function                   | With flow control option                     |
| Sealing principle                      | Soft   |
| Mounting position                      | Any  |
| Manual override                        | Detenting<br>Non-detenting                   |
| Type of control                        | Pilot-controlled                             |
| Pilot air supply port                  | External                                     |
| Flow direction                         | Non-reversible                               |
| Symbol                                 | 00995865                                     |
| Lap                                    | Underlap                                     |
| Pilot pressure MPa                     | 0.25 MPa 1 MPa                               |
| Pilot pressure                         | 2.5 bar 10 bar                               |
| b-value                                | 0.3  |
| C value                                | 6.7 l/sbar                                   |
| Switching time off                     | 37 ms  |
| On switching time                      | 13 ms  |
| Duty cycle                             | 100%   |
| Max. positive test pulse with 0 signal | 2000 μs                                      |
| Max. negative test pulse on 1 signal   | 3600 μs                                      |
| Coil characteristics                   | 24 V DC: 3.3 W                               |
| Permissible voltage fluctuations       | +/- 10 %                                     |
