## Stem actuated valve V/0-3-1/8 Part number: 4938

General operating condition

| Feature                                    | Value  |
|--|--|
| Valve function                             | 3/2, open/closed, monostable                                       |
| Actuation type                             | Mechanical   |
| Standard nominal flow rate                 | 140 l/min  |
| Pneumatic working port                     | G1/8   |
| Operating pressure                         | -0.95 bar 8 bar  |
| Structural design                          | Piston seat  |
| Nominal width                              | 3.5 mm   |
| Type of control                            | Direct   |
| Symbol                                     | 00991832   |
| Operating medium                           | Compressed air as per ISO 8573-1:2010 [-:-:-]                      |
| Information on operating and pilot media   | Operation with oil lubrication possible (required for further use) |
| LABS (PWIS) conformity                     | VDMA24364-B1/B2-L  |
| Ambient temperature                        | -10 °C 60 °C   |
| Actuating force                            | 28 N   |
| Actuation force in initial position closed | 37.53 N  |
| Product weight                             | 90 g   |
| Type of mounting                           | With through-hole  |
| Pneumatic connection 1                     | G1/8   |
| Pneumatic connection 2                     | G1/8   |
| Pneumatic connection 3                     | G1/8   |
| Seals material                             | NBR  |
| Housing material                           | Aluminum, anodized   |
