Detailed technical data

Safety-related parameters

MTTF_D (mean time to dangerous failure)	123 years ¹⁾
--	-------------------------

¹⁾ This product is a standard product and does not constitute a safety component as defined in the Machinery Directive. Calculation based on nominal load of components, average ambient temperature 40 °C, frequency of use 8760 h/a. All electronic failures are considered hazardous. For more information, see document no. 8015532.

Performance
